

Doug Hagan

Software Engineer

👤 Profile

I am a Software Engineer that specializes in Java, React, and Nodejs. My 10+ years of experience as a Culinary Expert has made me driven, tenacious, and dedicated.

Being an incredibly fast learner along with my resourcefulness, I have been able to grow quickly everywhere I work.

🛠 Projects

That's the Spirit! - Capstone

This was the first capstone project for Springboard. It is a Punny Web application that allows users to find and learn how to make new Cocktails! It populates a list using an API and derives a suggested list of cocktails using most common liquors the user has added to their favorites.

My Stock Tracker - Capstone

This was the final capstone project for Springboard. It is a web based application for tracking stock prices, data, and charts on your favorite stocks. Gives users updates on index prices, a user can add stocks to a watch list, and search with tickers. This application displays stock chart data and metrics as well.

PHB Hoolihans Minecraft Modding Team

Building Java scaffolding tools for Dev environment and python development (OOP). Developing new blocks for various "missing blocks" such as glass stairs and slabs.

📁 Professional Experience

General Manager at Mox Boarding House Restaurant, Bellevue

April 2022 — October 2023

- Leading the restaurant team with responsibility while modeling ideal behavior for the employees.
- Coaching and developing an established team to reach bigger goals.
- Learned the Point of Sale system (Toast) in three weeks and became the known expert.
- Trained the 33 restaurant staff how to use it as well as several managers.
- Implemented Toast and created the user flow and layout for the staff to use. Used Toast find inventory errors and fix them.
- Responsible for scheduling, meetings, staffing, and all restaurant related administrative duties.

Head Chef at Mox Boarding House Restaurant, Bellevue

October 2014 — September 2020

- Led a diverse and growing team of individuals, and coached many of them into leadership roles.
- Implemented and managed new procedures, contributing to the growth of the company.
- Responsible for scheduling, meetings, staffing, and all restaurant related administrative duties.
- Contributed to the development, and layout for new locations, lead teams to open new restaurants.

Supervisor/Lead at Ray's Boathouse Seafood Restaurant, Seattle

June 2011 — September 2014

- Completed externship for Le Cordon Bleu resulting in a job as a prep cook, less than a year later becoming the Lead Supervisor.
- Learned to communicate efficiently to the entire team, and coach individuals to grow.
- Maintained attention to detail and accuracy under pressure while regularly serving 600-700 guests a shift.

Education

Certificate of Software Engineering, Springboard, Maryland

January 2021 — April 2022

Learned Javascript in just 1 week to make it to the deadline to apply.

Worked odd jobs to pay bills while dedicating a majority of time to learning and building applications.

Had to problem-solve most lessons while learning on a windows machine and most instructions were for Mac.

Certificate of Culinary Arts, Le Cordon Bleu College of Culinary Arts-, Seattle

July 2010 — June 2011

Graduated top of my Class

Earned the Blue Cravat, which showed the instructors that I could be called upon for lesson demos and training.

Excelled at organization and cleanliness.
